

# PM-653 FLOCUNET

## FLOCCULANT

**PM-653 FLOCUNET:** Product that removes water turbidity and improves water transparency by gathering all the suspended particles to the bottom of the pool making water filtration and cleaning easier. It does not affect pH level when recommended doses are respected. It remains effective when pH is between 6 and 9.

### METHOD OF USE AND DOSAGE

- Add product at the end of the day, when there is no one is the pool
- **Maintenance treatment:** add 0.4 L/100 m<sup>3</sup> of water once a week.
- **Shock treatment:** the dose quantity should be applied according to the level of contamination in your pool.
- Add the product directly or dissolve it first with a proportion of 1/3; spread throughout the whole pool and filter for 2 to 3 hours.
- Leave it on for few hours and preferably an entire night while the filtration is off. Then, start cleaning by evacuating the dirt to the drain and rinse the sand filter efficiently.

### PHYSICAL PROPERTIES

- Appearance: Colourless to yellowish liquid
- Odour: Odourless
- pH: 4.0 – 5.0
- Density: 1.049 – 1.074 g/cm<sup>3</sup>
- Water Solubility: Miscible in all proportions

### PRECAUTIONARY STATEMENTS

- Keep out of reach of children.
- Do not get in eyes, on skin or on clothing.
- Call a POISON CENTER or doctor/physician if you feel unwell.

### PACKAGING

Packed in 1, 5.5 and 25 Kg
